

Beyond the Grid

Patchday

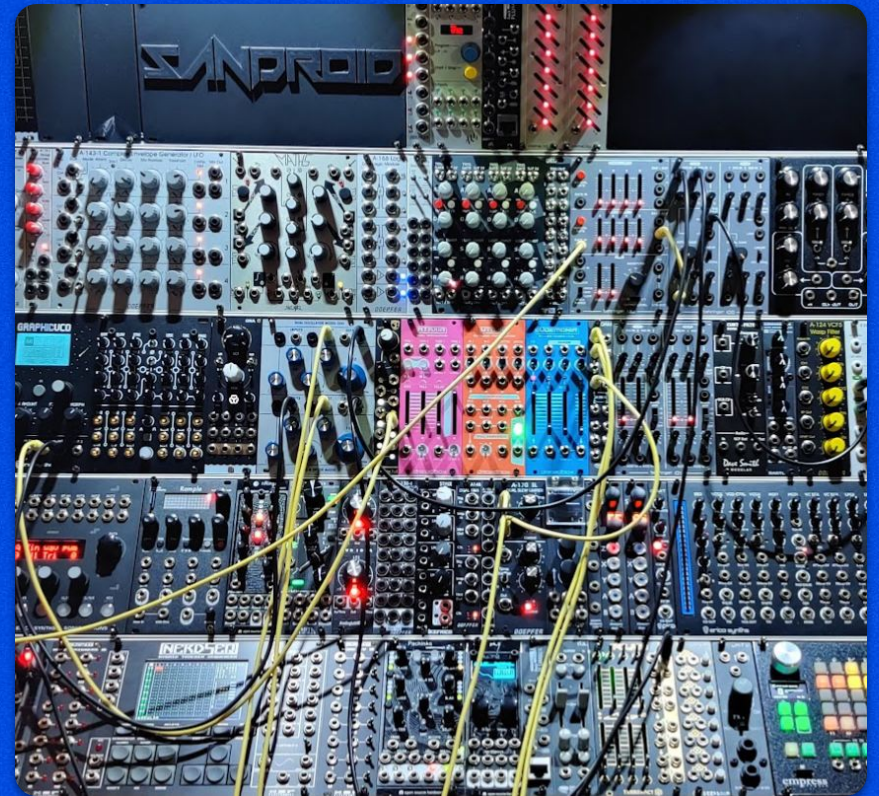

The next generation of modular documentation and planning.
Built for performers, makers, and enthusiasts.

The Documentation Crisis

Modular systems are volatile instruments.
Every performance is a unique state that
is notoriously difficult to capture.

- 📷 **Messy Phone Pics:** Hard to read, hard to search.
- 📖 **Analog Journals:** Impossible to scale or share.
- 📄 **Information Loss:** No record of internal menu settings.

A New Category of Tool

EXISTING TOOLS

Platforms like ModularGrid are built for the **Buying phase** .

Calculating power and HP for a purchase.

PATCHDAY

Patchday is built for the **Living phase** .

Documentation, patching, and recalling every detail.

GENERATE & SHARE

Scalable PDFs, Vector Files or Images for any use case.

Stage performance setups, Community tutorials, etc.

Blueprint Aesthetic

Moving beyond bitmaps to a **fully scalable vector architecture**.

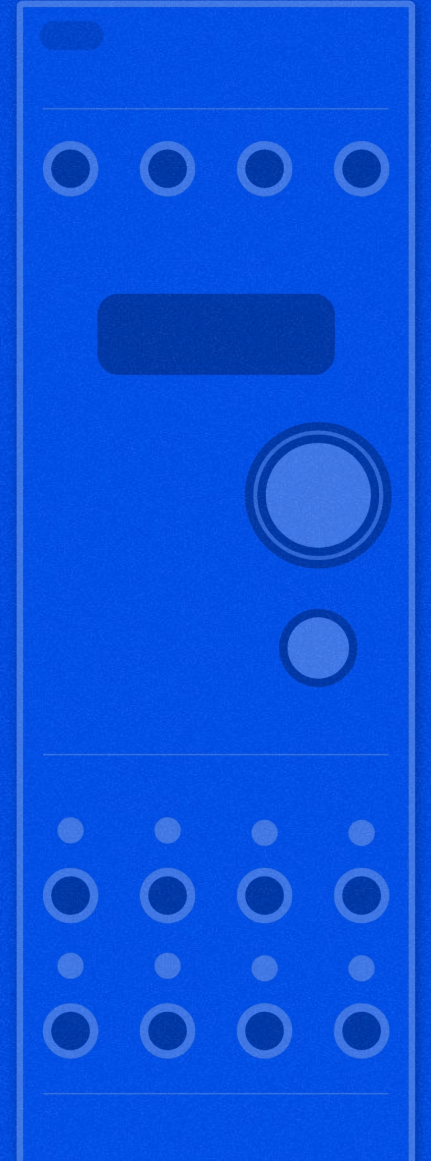

Our module blueprints focus on essential legibility.

No more clutter.. just the controls and labels you need to see!

☐ Scalable to any print size.

🎨 Fully re-colorable themes.

📄 Ultra-sharp PDF exports.

For every Rack & Frame

Patchday isn't just for Eurorack.
It's a universal documenting engine for
tactile hardware.

Eurorack / 5U / 4U

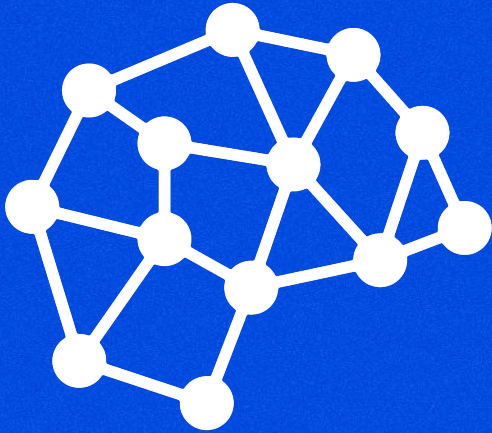

Guitar Pedalboards

19" Studio Racks

Custom Synthesizers

and more...

Intelligent Documentation

Natural Language Generation

Because modules hold rich metadata,
Patchday can generate human-readable setup guides automatically.

```
"Connect [LFO Out] to [VCF Cutoff]. Set [VCF Peak] to 60%."
```

Built for Longevity

Local-First

Your data stays on your machine. No mandatory cloud, no internet requirement.

Perpetual License

Pay once, own it forever. No subscriptions to drain your synth budget.

Open Source Commitment

A guarantee that if development stops, the code goes public. Your tools never die.

A Partner for Makers

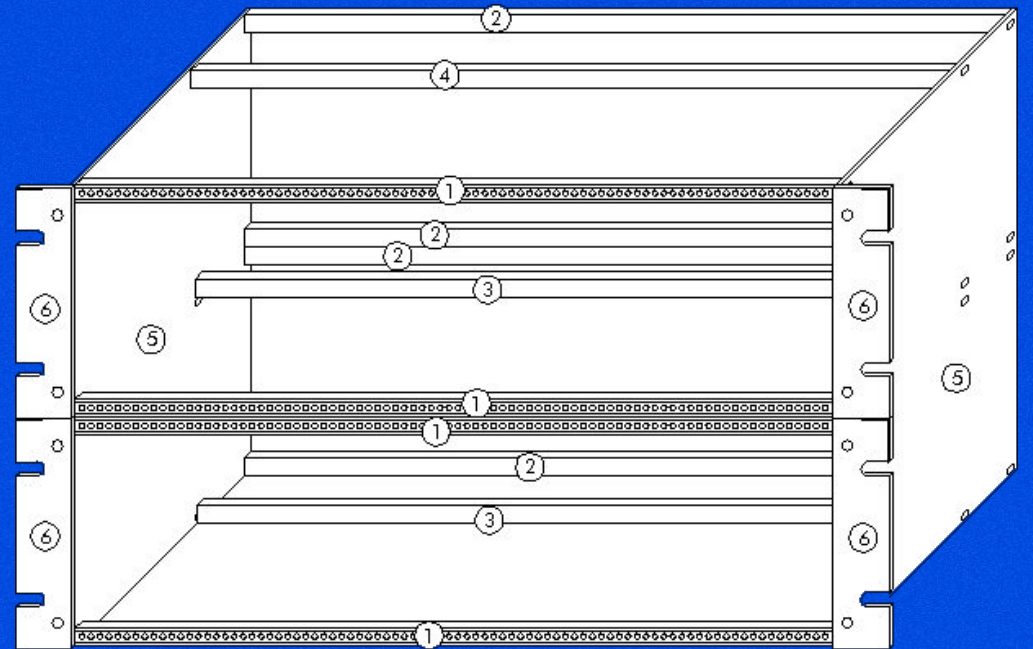

Rapid Prototyping: Mock up panel layouts instantly.

Documentation: Export assets for your official manuals.

Official Packs: Verified vector packs for your entire catalog.

More for everyone

FEATURE	MODULARGRID	PATCHDAY
Primary Goal	Planning / Buying	Documenting / Performing
Graphics Type	Bitmap (Static)	Vector (Scalable)
Offline Support	None	Full (Standalone App)
Model	Subscription / Free	Perpetual License
Print Quality	Low (Screenshots)	High (Architectural Blueprints)

The Path Forward
